INTRODUCTION

At SEA.AI, we are committed to providing our users with the best possible experience by regularly releasing software updates. These updates include the latest technological advancements, enhancements to existing features, and critical bug fixes.

This document provides step-by-step instructions for updating Sentry to the latest version. Ensure you follow these instructions carefully to avoid any disruptions in service.

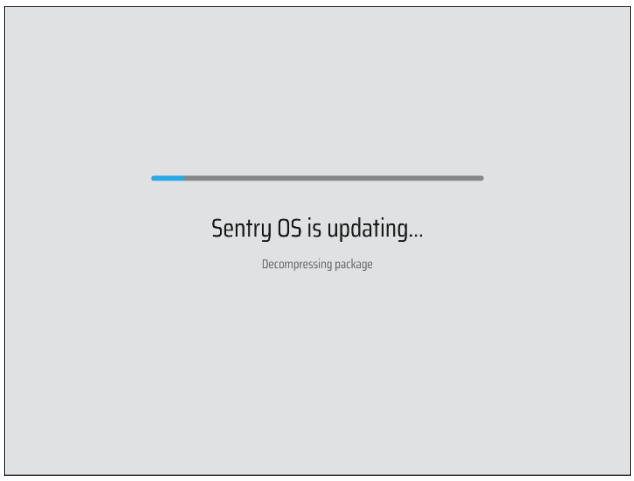

REQUIREMENTS

The following are the minimal requirements:

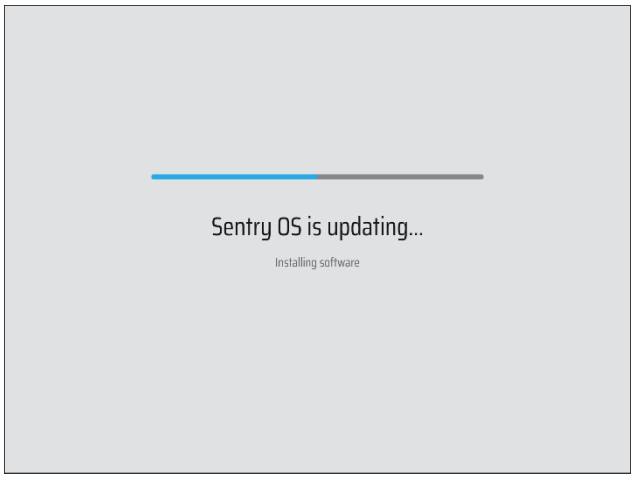

1. SEA.AI Sentry System
2. Computer
3. Ethernet Connection
4. Sentry and the Computer are on the same Local Area Network (LAN)

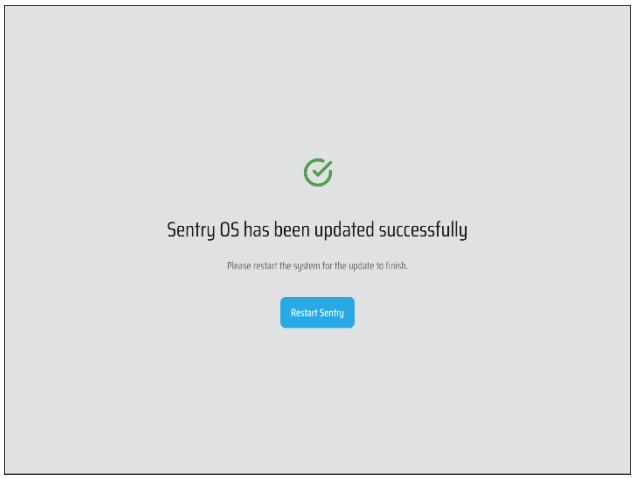

STEP-BY-STEP INSRUCTIONS

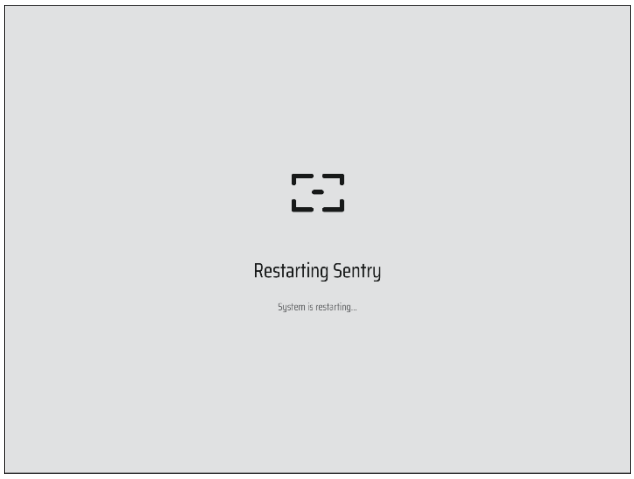

1. Navigate to the software download page.
2. Download "SEA-AI_Sentry_x.x-xx.oscar" file to a known folder on your computer. (~150MB in size).
3. Open the web browser (e.g. Chrome) on your computer and start the Sentry User Interface (UI) by typing either http://sentry.local/ or http://192.168.1.191/
4. In the main User Interface, go to Settings.
5. Select the System tab and scroll down to the *Software* section. Take note of the current software version. This will be used to confirm that the new software has been installed successfully.
6. Scroll down to the *System Update* section and click on select file.
7. A window prompt will appear; navigate to the update file location in step 2.
8. Select Upload file and observe the update process:
